

Volunteer With RAMPS

Renovation and Modification Projects

In 1991, the Southwest Center for Independent Living (SCIL) started the RAMPS program, which donates home modifications to increase access and safety for low-income people with disabilities. Modifications can create more self-sufficiency, independence and often helps seniors and people with disabilities avoid moving into a nursing home or other institutional facility.

Volunteer with RAMPS!

- Volunteers provide valuable labor to build wooden wheelchair ramps for seniors and people with disabilities. SCIL conducts on-site surveys, sketch drawings of each project and purchases and arranges delivery of the materials and lumber to build the ramps.
- You can volunteer as an individual or with a group.
- SCIL's RAMPS Committee provides training as well as recruits volunteers and donations for the program and the annual RAMP CAMP event. Contact us today to learn more!

RAMPS needs volunteers to build Wheelchair Ramps!

Christian, Dallas, Greene, Lawrence, Polk, Stone Taney & Webster Counties

How to get started:

- Have the desire to improve the community, help people with disabilities and learn how to build wheelchair ramps? Whether you have a construction background or are a novice, SCIL's RAMPS Committee leaders will teach you!
- Complete a volunteer application, attend 1 hour RAMPS volunteer training and complete a Family Safety and Registry Act Background Screening.

To learn more about the program, request a modification or volunteer, please contact the SCIL Access department.
